OpenHack: DevOps

Certified Blockchain Developer

Hemanth Baji Maganti

Holds ground on Azure [Cloud] | Hyper-ledger[Block-Chain] @
Reshaping Organization On My Ground
Andhra Pradesh, India

Summary

I am on a mission to be part of the carbon-neutral chain, to my skill set and learning I am driving my workforce in cloud computing , My skill building activities in the blockchain tech made me mentor some students on blockchain technology and beautify its realistic application.

The complexity and puzzles made me to choose my career objective in blockchain technology, In my free time I spend on environmental activities and identifying geometrical patterns from mother earth, seeking to use proven projects management and design skills to improve quality, cost, and time metrics for nature designed engineering
